Dear Johan,

On your request, I retraced one of the very first so-called magneto-dynamic p.u.-heads, which followed rather closely your original design ideas of the 1950-ies.

I hope your "fathers heart" will pound a little louder in seeing-again this brain-child.

With kind regards,

p.o. N.V. PHILIPS' GLOEILAMPENFABRIEKEN

P. van der Lely
